Hi all-

Suggestions attached. Sorry they aren't as complete as I would like, but I would be happy to provide more detail or rationale if folks have questions. This week has gotten away from me.

-Stephanie

Hi All,

Attached are Sacramento Regional county Sanitation District's (Regional San) input on the charge questions, added onto Gary and Scott's markups. I like Erin's getting ahead on tasks and listing out some presentations and presenters. One thing that struck me on question 2, regarding "monitoring program" is that there are many monitoring programs in the Delta and finding one presenter that knows all the monitoring programs would be difficult to find. The Conservancy a few months back had people from multiple Delta monitoring programs present on their specific program, maybe [Shakoora Azimi-Gaylon](#), (916) 375-2086, who organized the presenters could help.

Tim may have some additional input on the charge questions, he will be back in the office next week.

Take care,

Linda Dorn|Environmental Program Manager| ph: 916-876-6030 fax: 916-876-6158| dornl@sacsewer.com|

Subject: EPA feedback on charge questions for Delta Outflows and Related Stressors workshop

Hi Everyone,

I made recommendations in the bibliography and in the charge questions which are attached. I am happy to work with Matt and Sam on linking the bibliography references to the charge questions so let's touch base on how/when we can get that done before next Friday.

I was also looking at the previous agenda and recommended presentation topics and speakers. It occurred to me that the panel may be in better shape to effectively answer the charge questions if we identify presentation topics and presenters based on the questions. I used a clean copy of the charge questions to make some suggestions presentation topics in the third attached document. Take or leave the suggestions – I realize I'm getting ahead of the assigned tasks. I at least want to recommend that our group identify the presentations based on getting useful answers to the charge questions.

Dear Colleagues,

Please remember to submit your comments on the charge questions and bibliography by COB this Friday, November 8.

Thanks,

Matt

Subject: Reminder: Planning Group Meeting: Delta Outflows and Related Stressors

Dear Colleagues,

This is a reminder that we have a planning group meeting tomorrow, Friday November 1, in the Klamath Training Room on the second floor of the Cal/EPA building. You will need to sign in and get a visitor pass to the second floor (you can specify "Klamath Room" in place of a name on the sign in sheet). The room is across the walkway to your right if you come up the stairs or in the direction away from the Coastal Room, Byron Sher, etc. if you use the elevators.

If you cannot attend in person, you may call in to the conference line: (916) 255-4044. No participant code is required.

I have attached a finalized agenda for the planning meeting, the materials that were previously sent out Monday, and revised charge questions for discussion. I have received some requests for a latest draft of the charge. We are in the process of revising the introductory materials in the charge, and will share these when they are available. At tomorrow's meeting we will be focusing on the components of the charge contained in the questions and materials, with particular attention to the relationship between them.

Please let me know if you have any questions.

Regards,

Matt
